

# Exam Report

---

**Module Code/Title: Phys 3018**

**Module Leader: Antonios Kanaras**

*Feedback comments:*

This is the BSc projects module where the students are assessed with a written report and a viva by two examiners. The students did very well in the module. All the students passed the module and the average mark was quite high at 68.6 %. The students were well-prepared for the vivas and they developed excellent writing skills reflected by the exam marks.
